

Front Elevation

RAMPED APPROACH MAX 1:15 (WHERE GRADIENT EXCEEDING 1:20 BUT NOT 1:15)  
Provide a ramped approach to the principal entrance door with a firm and even non slip surface capable of supporting the weight of a wheel chair and its user (loose material such as gravel and shingle would not be suitable).  
Ramp to be at least 900mm wide and with cross falls no greater than 1:40 and a maximum gradient of 1:15. Landings of 1.2m to be provided every 10m. Ensure the top and bottom landing are at least 1.2m clear of any door swing (provide intermediate landings if necessary).

Proposed porch to be constructed of a similar materials as the the main house

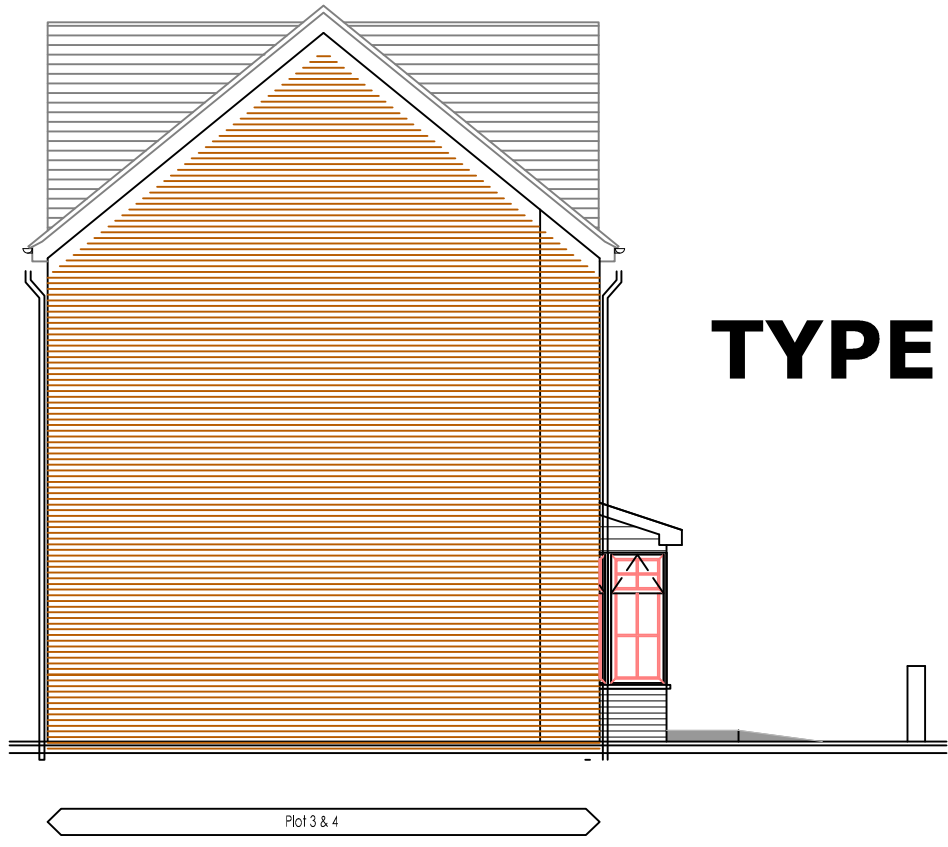

Side Elevation

Render as per the approved drawings  
Double glazed uPVC windows to match existing

Rear Elevation

Side Elevation

**TYPE 1**
