

THE CO-OPERATIVE FOOD

CONVENIENCE STORES - INDICATIVE DELIVERY SCHEDULE 2020

Please note that the delivery windows shown below are the generic window for products delivered to a Co-operative Food convenience store, frequencies are indicative and may vary dependent on sales volumes, EHOs, time of year etc. For the top two rows, we will deliver within the stated windows unless EHO or local issues necessitate a smaller delivery band within that overall window. Delivery times will be based on travel time from the delivering depot taking in to account operational constraints and delivery restrictions. For the 3 'supplier' rows, the timing is dictated by the supplier.

Please note that the vehicle sizes are for indicative purposes only and individual store requirements agreed with Logistics before any submissions are made. The total length of an articulated vehicle combination is based on a tractor unit and 10.5m (35ft) trailer. This should be the starting point as much as possible.

Delivery Type	Source	Vehicle	Frequency	Delivery Window
Ambient	Co-op Depot	13.4m artic (10.5m trailer and unit) OR 10.36m or 12.19m rigid	3 times a week (Mon – Sat) No deliveries Sun, Bank Holidays	07:30-20:00
Fresh, Frozen, Milk	Co-op Depot	13.4m artic (10.5m trailer and unit) 10.36m or 12.19m rigid	6 times a week (Mon – Sat) No deliveries Sun, Bank Holidays	07:30-13:00 * ‘* can be extended to 1500 at peak periods’
