Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: It will have a negative effect on the existing Manchester Arena site. People will be split between the 2. There will be less call for the existing arena and local business, including the city centre will suffer as a result. The proposed location is too far out of town. All that use it will need a car to get to and from it, which will have a detrimental impact on the local environment and those who live locally. Is this really what Eastlands needs? Why propose something that competes within such a small area. Why not propose something that enhances, supports and improves both areas for everyone?
