Comment Reasons:

Comment: I do not think Manchester can support another big arena when the Manchester arena is more than adequate and the location is easily accessible.

Consideration must also be given to smaller music venues in our great city that I'm sure would suffer. We have a cricket ground two large football grounds capable of supporting outdoor events. We have a velodrome we are not short of capable sporting and arts places.

With the crisis we have just encountered I think attention must be paid to our smaller venues who will be able to keep the environment safer in my opinion. Manchester is not London. We have a closer community we are a united diverse city with a community feel. Just because London can support two arenas doesn't mean we can or should.

Maybe affordable housing is needed. I hope you will reject this application. Let's keep our Manchester vibrant and supportive of our existing venues. Show Manchester love and respect I think we deserve that at least thank you for your time
