Stance: Customer objects to the Planning Application

Comment Reasons:

Comment:I do not believe that Manchester needs a second venue of this type. We already have an adequate venue at Eastlands at the MCR City ground. If this was to go ahead the Arena in the City Centre would be put under threat meaning all the support and revenues that local Hotels, restaurants and bars receive would be lost causing a huge financial loss to them. Not to mention the additional strain and eco effects in transport. It's hard enough now making your way out of Eastlands ground after a concert. With the arena it is so convenient to travel there and back from with it being close by to train and bus links.

I can't see any positives for local neighbours in the Eastlands area either. Surely the noise and additional traffic issues will cause mayhem.

I absolutely object to this development.
