Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: There is simply not the demand or interest in a second large arena in Manchester. This could jeopardise the future of Manchester arena which is an important element of Mancunian history and culture. Not only this, there will be further traffic and public transport issues in the city centre which we are not equipped for making it more difficult for the residents of Manchester to get around their home city. I am a student who lives in Manchester for the majority of the year and if the council values the love and appreciation Mancunians have for their city at all they would know that approving this planning permission goes against what Mancunians love about the city which is the variety of old protected sites and music venues and being a hub for new small independent businesses.
