Comment Reasons:

Comment: I have been going to the arena since the 90's and have seen so many of my favourite artists/bands there. For another arena to open and at the place they suggest is silly - its outside of the city centre causing more pressure on public transport and more cars having to be used. Also we always use the bars/food places near the arena before any gigs, with the current climate as it is these places need custom more than ever - a lot of independents rely on this footfall so to cause the arena to be at risk has such a knock on affect to all these places too. It just doesn't make sense and is so not needed!
