Comment Reasons:

Comment: Manchester already has a great arena which is based next to a train station and the metrolink and is also served by many taxi stands in the vicinity along with being near many hotels and at the heart of the city. It is a perfect place for this type of venue with easy accessibility to people from all over the country as well as from abroad.

To build a second arena would not be conducive to the continued success of Manchester as a place for all types of entertainment and leisure.

The proposed 2nd arena would not be in a great place/location as it is not served by the train services etc like the current one is. A second one just has no sense whatsoever and is a waste of money which should be used for many other services which desperately need it!!
