Comment Reasons:

Comment:I agree something needs to go in this space I have a few issues tho regarding the safety of the people going to the venue and the effect on other buildings already in the area for the same things and if they could both work together without field effecting each other . Also thinking of the staffing and the traffic and the issues this will cause is already a nightmare when all venues are in use now another load in that area again is a concern with attacks on the city at a high threat . Also the arena isn't sold out on a regular basis as bands can't fill it due to costs and think this is going to be even worse after covid going forward so am really unsure this sounds amazing but also could be a negative impact on the city . If all worked well and it was a back up venue then that would be great but can not see it working that way . Maybe a area for outdoor music would be better with removable roof another indoor venue I don't think would work .
