Comment Reasons:

Comment: Look at what is happening in the East of Manchester. It is unrecognisable now from how it used to look and so much better for it. The addition of a new arena/entertainment centre can only enhance further what Manchester has to offer. A new world class facility will only bring in more footfall to the city. It will attract more world class acts, it will provide employment opportunities for many.... The current Manchester Arena will still be a big hit.... A bit of healthy competition can only be a good thing. More concerts, more sports events, more money coming into the City. People will still be able to use the city centre venues before venturing to the proposed new arena. We have excellent transport links now compared to yesteryear. The city of Manchester is buzzing, it is colourful, it is vibrant. It is like a second home to myself, my friends and my family.....so I say yes, bring on a new arena to enhance the great city of Manchester even further.
