Comment Reasons:

Comment: I firmly back the research which demonstrates that Manchester cannot support 2 substantial arenas in the city. It will bring additional congestion to the already congested Eastlands area, and I do also believe that the existing Manchester Arena would suffer! For residents like me who have no Metrolink access and my nearest train stations are 2 and 3 buses away, I rely on the bus or car to get to the existing arena, which is relatively easy given its location. If this arena were to close to accommodate the planned Eastlands facility, this would cut off a large portion of the Greater Manchester community as this location is less accessible by public transport.
