

Appendix E Proforma for Planning Applications

**MANCHESTER
CITY COUNCIL**

Planning Application – Waste Management Strategy

Planning Application Number: PP-08437128

Date Submitted: 15/06/2020

Estimated volumes/ m² required by the development

Low Rise Domestic

Waste Types	Capacity Required (litres)	Number of bins required per household	Confirm what is to be provided
General refuse	140 / 240	1 x wheeled bin	N/A
Pulpable Recycling	140 / 240	1 x wheeled bin	N/A
Mixed Recycling	140 / 240	1 x wheeled bin	N/A
Garden Waste	140 / 240	1 x wheeled bin	N/A
Food Waste	23	1 x 23 litre caddy	N/A

High Rise Apartment Developments

	Yes/No - how much space has been provided?
0.43m ² has been provided per apartment for the container space. Space to manoeuvre and access containers individually has also been provided so that each container can be accessed and removed for collection individually.	N/A

Commercial Developments

Please state number of bins you propose, showing calculations where appropriate.

General Waste -	
Pulpable Recycling -	
Mixed Recycling -	AS EXISTING
Food Waste -	
Industrial Waste -	

Has / will a contract be obtained with a licenced waste carrier?	☒
--	-------------------------------------

Mixed Use Developments

Are the stores for residential and commercial separate from each other?	☐	N/A
---	--------------------------	-----

Internal Stores (Residential and Commercial)

Please provide details of internal stores / segregation of waste and recycling.

The future operation including the internal stores and segregation of waste at 39-41 Piccadilly Plaza will be subject to the same waste management and servicing strategy as existing which is enforced by the facilities management team within City Tower.

Storage Areas for Waste Containers (Residential and Commercial)

Please provide details of container stores, attaching plans if appropriate.

Waste and recycling associated with this commercial use will continue to be stored as existing on the ground floor of the loading bays. The existing arrangement consists of:

- Loading Bay 1 and 2 comprise 10 general waste and 6 recycling 1,100L containers;
- Loading Bay 3 comprises 9 general waste and 3 recycling 1,100L containers; and
- Loading Bay 4 comprises 1 general waste 1,100L container.

In total there are 20 general waste, and 9 recycling containers.

Ensure all bins in the store are accessible	☒
Ensure recycling facilities are as easy to access as general refuse	☒

Please confirm details of waste store ventilation and hygiene / cleaning proposals

Ventilation -	The proposed bin storage will be managed in accordance with the current waste management strategy for the building. As such, the ventilation and hygiene of waste storage areas will be as existing.
Hygiene -	

Please provide details of who will be responsible for placing the bins at the collection point and returning them to the store / property promptly e.g. resident / management company

The Facilities Management (as existing).
