Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I object to this proposal. It is bad enough on match days with cars parked over our drives. Litter and discarded bottles left all over. People urinating in the streets and general rowdiness. Coupled with the fact that the roads cannot cope with the added traffic, making it almost impossible for us to get in and out of the area.

There are not enough car parks at the Etihad Stadium as it is. The plans look like they will be taking up one of the car parks, thus reducing car parking space further.

This project will bring extra traffic and antisocial behaviour to an area that has more than its fair share already. We have an arena in Manchester that is central and well fed by public transport, we don't need another one. Manchester Arena isn't in a residential area so concerts and events have little impact on residents.

Please have some consideration for the residents and the impact this will have on their lives. I would also imagine this would have a negative affect on property prices, making it impossible for many of us to be able to sell up and move away from this area.
