Commenter Type: Neighbour

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment:I feel this is a great opportunity for the city. It will bring much needed business into the city and support the ever increasing hotel stock. it will also create 1000's of jobs which are needed.

Any investment into the city at this time is much needed.

There are enough events through out the year to support both Manchester Arena and this new complex. I live in what will be one of the routes from the city to the venue. with double trams and ample transport links this not have any impact on my local area. when city are playing at home the impact is minimal now.

a much needed addition to the city and must be passed.
