Comment Reasons:

Comment: As a supporter of the Manchester music scene for many years I believe that a new arena would have a devastating effect on the arena that is the heart and soul of Manchester and holds so many memories and so much history.

Not to mention when driving to events near etihad it is almost impossible to find parking and traffic is horrendous. I would hate to attend a show at the etihad with added pressure of a new arena near by. It would put me off visiting these places as I drive from Leeds and parking and traffic is always taken into account. I would be happier to drive to somewhere like Sheffield if a new arena was built in Manchester. We should be supporting the arena not destroying it.
