Comment Reasons:

Comment: I really can't understand after all that the Arena has been through in recent years why you are contemplating building a similar complex in the city which will be in direct competition with it? It is obvious that there is only room for one such arena in Manchester, we don't need 2 and can't support 2. The music events that I have attended at the Etihad have been a nightmare with traffic and congestion. That area is not a safe place to go to at night on public transport for myself and my daughter. When we attend events at the Arena our tram from Parrs Wood arrives directly into Victoria, we don't need to take the car and we feel safe arriving directly inside the stadium. Please don't go ahead with this project.
