Comment Reasons:

Comment: As someone who lives outside of Manchester, this project definitely has my support. I love the current Manchester Arena but an extra venue can only have positive impacts on the area, and further develop an area which has had incredible investment. For my point of view it is crucial to support these areas outside of the City Centre, and this project would definitely do this. From my individual point of view, a venue like this would be great because parking would be significantly easier, and it is much easier to access from outside of the city and therefore I think it would attract people to come to Manchester to go to events from other cities significantly more than the current arena does. I do not believe that the success of this arena would come at a detriment to the existing arena or the city centre, as it would provide a different experience and can complement each other.
