Specification

Aluminium 6063T6 alloy to BS EN 755 standard, powder coated to BS 6496 to 60 micron finish. Standard stock finish: White - Interpon SA098E gloss.
Stock RAL finishes available on request: Brown - Van Dyke Gloss BS08B29, Black Satin 9005, Pure White Satin - 9010, Grey Satin - 7016, Cream Satin - 9001. The sub frame is made from primed, environmentally certified (MTCS) engineered timber. It is a primed rough finish, designed to be hidden from view. If bevelled the timber size will vary subject to the angle required, this will not change the finished build size of the unit (A&B Dimensions). All frames are factory glazed. Standard gasket colour is White. All frames include White 28mm uPVC trim as standard (sufficient for the front face only).
Painted PEFC timber or MDF colour matched where applicable or available on request. Weight details are for guidance only and may vary subject to final specification. In line with Clearview's policy of continuous product development and improvement, we reserve the right to make minor alterations to specification without notice.
