Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: Manchester badly needs a new arena, especially in view of what has happened and the age of the old one. To have one in an area which has easy access by car and public transport and which provides other services would be an attractive proposition. The new arena would, I'm sure focus on public safety and comfort, the old one was so steep inside and not easy to enter or exit. Manchester is central to the north of England and so many people have used the old arena in the past. It provided us with great entertainment over the years but sadly needed complete renovation or knocking down. I support this application and wish the application team well in their endeavors to get this accomplished.
