Description of site/building

Listed building: Grade II Star

Conservation area: not applicable

Tree Preservation Order: not applicable

Description of area

The current Manchester Central Complex consists of three main buildings: Manchester Central, the former Central Station (Grade II* Listed); the Manchester International Convention Centre (MICC); and, the Seminar Centre. There is also a surface car park and service yard to the rear of the building. The Manchester Central site is bounded by Watson Street/ the Great Northern Tower residential building, Windmill Street, Great Bridgewater Street and Lower Mosley Street. Surrounding the site are the Bridgewater Hall and the Grade II* Listed Great Northern Warehouse, Radisson Edwardian Hotel and Midland Hotel. The complex is raised approximately 10m above street level at some points and is separated from Lower Mosley Street by the Metrolink viaduct.

It is an impressive example of Victorian transport architecture, designed in 1875-80 by Sir John Fowler for the Midland Railway Company. The former railway terminal station is rectangular on plan and has a substantial footprint. The elevations are faced with red brick and contain regular rows of windows with bays of divided by brick buttresses. The elevations are partially obscured by modern extensions, however much of the Lower Mosley Street elevation and the network of cast iron lattice grids of the front and rear elevations remain exposed. The convex roof structure spans 64 metres and is segmentally vaulted, giving the building a horizontal appearance. Arches are linked by lattice purlins carrying intermediate ribs. Internally, the building retains its large open vaulted space which, despite its conversion to an exhibition space, has maintained its character and grand form.

The building was historically and physically linked to the Grade II* Listed Midland Hotel, which provided accommodation for passengers arriving at the station. The site is not within a conservation area, but is adjacent to the St Peters Square and Deansgate Conservation Areas. Manchester City Council is a majority shareholder in the complex.

The complex is undergoing refurbishment works and several recent applications have been submitted to resolve problems with the structure and improve the appearance of the train shed.

The Manchester Central complex is to be used as the 'Nightingale of the North' field hospital due to the COVID-1 breakout.

The proposal relates to front and rear elevations of the Grade II* Listed original train shed.

Description of development

Listed Building Consent is sought for the repainting of the original steelwork of the front and rear elevations of the Grade II* Listed train shed of the Manchester Central complex.

Planning permission referenced 126271/FO/2020 has also been submitted for the works.

Consultations & Notification Responses

Publicity – The application was advertised in the local press as an application for listed building consent, a site notice was displayed on site and letters were sent to surrounding occupiers. No representations have been received.

Historic England (North West) - On the basis of the information available to date, we do not wish to offer any comments. We suggest that you seek the views of your specialist conservation and archaeological advisers, as relevant.

Issues

The main issues for consideration relate to the impact of the proposals on the on the character and appearance of the listed building. The main policies that relate to this proposal are:

The Adopted Core Strategy for the City of Manchester

Policy EN1 (Design Principles and Strategic Character Areas) advises that developers will be expected to consider the City's heritage and continue the rich pattern of activity in the core area.

Policy EN3 (Heritage) advises that new developments must be designed so as to support the Council in preserving or, where possible, enhancing the historic environment.

Policy CC4 (Tourism, Culture and Leisure) advises that proposals to improve the appearance, use and accessibility of all cultural and visitor attractions will be supported.

Policy CC9 (Design and Heritage) advises that development in Manchester should preserve or enhance the heritage assets affected.

Policy SP1 (Spatial Principles) advises that development in all parts of the City should protect and enhance the built environment.

Policy DM1 (Development Management) advises that all development should be appropriately sited, scaled, formed, massed and detailed with appropriate layout and materials.

The Unitary Development Plan for the City of Manchester

Saved policy DC18.1 (Conservation Areas) states that the Council will seek to preserve and enhance the character of its designated conservation areas.

Saved policy DC19.1 (Listed Buildings) advises that in determining applications for listed building consent the Council will have regard to the desirability of securing the retention, restoration, maintenance and continued use of such buildings and to protecting their general setting. The City Council will:

- not permit any external or internal alteration or addition to a listed building where in its opinion, there would be an adverse effect on its architectural or historic character;
- not permit alterations to a listed building that would prevent the future use of any part of the building.

National Policy

Sections 16, 66 and 74 of the Listed Buildings and Conservation Areas Act 1990 requires that special consideration is given to the preservation of the significant fabric and setting of listed buildings and conservation areas. Development decisions should, therefore, accord with the requirements of the NPPF and to section 16 (Conserving and Enhancing the Historic Environment).

It is a fundamental requirement of the NPPF that planning proposals contribute to the achievement of "sustainable development" (NPPF Paragraph 7). In order to meet this key planning objective, in this instance, the development should sustain and contribute to the stimulation of a thriving historic environment.

Paragraph 185 states that in determining planning applications, local planning authorities should take account of:

- The desirability of sustaining and enhancing the significance of heritage assets and putting them to viable uses consistent with their conservation;
- The positive contribution that conservation of heritage assets can make to sustainable communities including their economic vitality; and
- The desirability of new development making a positive contribution to local character and distinctiveness.

Paragraph 189 advises that local planning authorities should require an applicant to submit sufficient information to describe the significance of any heritage assets affected, including any contribution made by their setting.

Paragraph 194 advises that any harm to or loss of a designated heritage asset should require clear and convincing justification. Substantial harm or loss should be exceptional and substantial harm to or loss of designated heritage assets of the highest significance, including grade I and II* listed buildings should be wholly exceptional.

Paragraph 196 states that where a development proposal will lead to less than substantial harm to the significance of a designated heritage asset, this harm should be weighed against the public benefits of the proposal, including securing its optimum viable use.

Section 12 (Achieving Well-Designed Places) advises that the government attaches great importance to the design of the built environment. Good design is a key aspect of sustainable development, is indivisible from good planning, and should contribute positively to making places better for people.

Under these criteria the effect of the proposal on the listed building and the setting of surrounding listed buildings has been considered.

The proposals are in general welcomed.

There are however, areas of the proposals that require more detail, including the selection of the final colour and the extent of repairs.

Due to the current use as a field hospital the applicant has been unable to undertake the investigations required to inform this required information.

Conditions would be required to agree these final details.

In view of the above, subject to compliance with conditions, it is not considered that the proposals would cause harm to the character and appearance of the listed building and are therefore in accordance with all above policies. The proposal could result in a treatment and appearance that is closer to the original appearance of the train shed helping to reinstate the character of the building and the surviving original fabric.

We consider therefore that the proposals are consistent with paragraph 196 and 197 of the NPPF and address sections 66 and 72 of the Planning Act in relation to preservation and enhancement.

Human Rights Act 1998 considerations

This application needs to be considered against the provisions of the Human Rights Act 1998. Under Article 6, the applicants (and those third parties, including local residents, who have made representations) have a right to a fair hearing and to this end the local planning authority must give full consideration to their comments.

Protocol 1 Article 1, and Article 8 where appropriate, confer(s) a right of respect for a person's home, other land and business assets. In taking account of all material considerations, including Council policy as set out in the Core Strategy and saved policies of the Unitary Development Plan, the Director of Planning, Building Control & Licensing has concluded that some rights conferred by these articles on the applicant(s)/objector(s)/resident(s) and other occupiers and owners of nearby land that might be affected may be interfered with but that that interference is in accordance with the law and justified by being in the public interest and on the basis of the planning merits of the development proposal. She believes that any restriction on these rights posed by the recommendation given is proportionate to the wider benefits of and that such a decision falls within the margin of discretion afforded to the Council under the Town and Country Planning Acts.

Recommendation: Approve

Article 35 Declaration

In assessing the merits of an application officers will seek to work with the applicant in a positive and proactive manner to seeking solutions to problems arising in relation to dealing with the application. In the instance of the following applications this has included ongoing advice about the information required to be submitted to support the application.

Condition(s) to be attached to decision for approval OR Reasons for recommendation to refuse

1) The development must be begun not later than the expiration of three years beginning with the date of this permission.

Reason - Required to be imposed pursuant to Section 18 of the Planning (Listed Buildings and Conservation Areas) Act 1990.

2) The development hereby approved shall be carried out in accordance with the following drawings and documents:

The site location plan referenced 5936 001 Rev P1 received by the City Council as local planning authority on 19 February 2020

The drawing referenced 5936 320 Rev P1 received by the City Council as local planning authority on 19 February 2020

The Design and Access Statement prepared by Taylor Design Architects Ltd. received by the City Council as local planning authority on 19 February 2020

The Paint Inspection Report prepared by Taziker Industrial received by the City Council as local planning authority on 19 February 2020

The Survey Report prepared by Taziker Industrial received by the City Council as local planning authority on 19 February 2020

The Polyurethane Finish specification sheet prepared by International received by the City Council as local planning authority on 19 February 2020

The Surface Tolerant Epoxy specification sheet prepared by International received by the City Council as local planning authority on 19 February 2020

Technical Specification for Repainting prepared by Arup received by the City Council as local planning authority on 19 February 2020

The Heritage Statement prepared by Taylor Design Architects Ltd. received by the City Council as local planning authority on 19 February 2020

The email from Stephen Sands of Taylor Design Architects Ltd. dated 9 April 2020

Reason - To ensure that the development is carried out in accordance with the approved plans. Pursuant to policies CC9, EN3, SP1 and DM1 of the Core Strategy, saved policy DC19.1 and Sections 7 and 12 of the National Planning Policy Framework.

3) Notwithstanding the details shown in the approved documents and detailed in condition 2 of this decision, prior to the repainting of the steelwork, the following details (a), (b) and (c) shall be submitted to and approved in writing by the City Council as local planning authority:

a) the colour (RAL/BS or details of a bespoke colour) of the new paint. This shall have been identified by a paint colour analysis of all layers of paint in a number of different locations on the steelwork. A sample of the paint applied to the steelwork shall be made available for viewing by the City Council as local planning authority.

- b) the extent of the repair of the steelwork to include details of the process of assessing and reporting these findings and defects.
- c) should the proposed repair works go beyond those included in the application, a revised repair method.

All approved repair works shall be completed prior to the repainting.

The works to the above elements shall then be carried out fully and only in accordance with the approved details.

Reason - To ensure that the appearance of the development is acceptable to the City Council as local planning authority in the interests of the visual amenity of the area within which the site is located, as specified in policies EN1, EN3, CC9, SP1 and DM1 of the Core Strategy and saved policies DC14.1, DC18.1 and DC19.1 of the Unitary Development Plan.
