Stance: Customer objects to the Planning Application

Comment Reasons:

Comment:I honestly believe that Manchester could not have two big arenas without one failing. I have attended the MEN Arena since it has been built and would hate to see that not be able to carry on. I know they have requested planning permission to extend their facilities and feel that surely it would be better to have one exemplary Arena with 25 years experience than a new one. I beg you not to let this new application to go ahead.

It survived the bombing, and I have attended since thinking that the extra security may have meant longer queues and admission time. This did not happen I was very pleased with the whole management of the situation.

Please take my comments seriously.
