Dear Jennifer,

Re: App. No. 126431/FO/2020 - Erection of a multi-use arena

I am writing on behalf of Allied London to give our full support for the above proposal.

Allied London devise, design and deliver landmark mixed-use real estate developments, buildings and concepts in London, Manchester and Leeds. This includes the completed, award-winning Spinningfields in the heart of Manchester and the ongoing St John's neighbourhood, which includes the former Granada Television Studios.

I support this proposal for these reasons:

- It is in-keeping with the city's Core Strategy and the long-term redevelopment of East Manchester.
- It will support place-making efforts in East Manchester with distinctive design and quality public realm contributing towards the area's narrative.
- A world-class state-of-the-art arena that is the largest in Europe, is in-keeping with the city's ambition to compete on the world stage. It will have a major impact on the visitor economy and external perceptions of the city.

01/06/2020

Manchester City Council Mail - Fwd: App. No. 126431/FO/2020 - Erection of a multi-use arena, Eastlands

· A £350m shovel-ready project will have a significant impact on the construction sector whilst creating thousands of jobs at a particularly vulnerable time.

· It will stimulate further investment in Manchester at a hugely significant time for the city.

Yours sincerely

Michael Ingall
