Good Morning,

Thank you for the opportunity to comment on the above application, having looked the proposals we would recommend the following:

- I would highly recommend that any new glazing installed as part of the proposals is laminated and any new doors, windows or shutters are security-certified to an appropriate Secured by Design (SBD) standard. Please see www.securedbydesign.com or contact this unit for more information.

- I would highly recommend the entrance to the apartments is well lit given that it is down the back street away from any natural surveillance therefore making the area more vulnerable to the residents of the proposed development.

I hope this is of use and please don't hesitate to contact us, if we can be of further assistance in relation to this matter.

Kind Regards

Sean Bastow Bsc Hons
