Comment Reasons:

Comment: Area is already incredibly busy with traffic on event days making movement for residents almost impossible. At times I have already been stuck in traffic for 90 minutes attempting just to get back to my house when the journey should only take 20 minutes. Events often can go on late into the night so even at this time it is hard to get home if you have been elsewhere in the city.

Air Pollution in the area will also increase if another capacity arena is built so close to an already large stadium and I noise pollution.

The area already has a stadium and several football pitches across the way. Another arena here would just be overkill and really affect the local residents.
