I live in Ancoats (13 years now) and I object to the planning application because there is no plan to erect a multi storey carpark.

A new arena will mean more traffic, more congestion, more difficulty travelling, when events take place. I really think we've had enough of this with Etihad. And why can't Etihad build a multi storey carpark?

As a resident I'm sick and tired of congested parking not to mention the increased pollution. Residents communities should not be used for event car parking.
