Construction (Design and Management) Regulations 2015
Designer Considerations
LDM Surveys Ltd, as the project's "Designer" as defined by Regulation 5,
and have avoided foreseeable risks to those involved in the construction and future use of the
structure and it is being submitted for its use as a residential building, taking account of
other design considerations and relevant rules associated with these hazards.
The Designer has provided adequate information about any significant risks associated with the
design and construction of the work which others in the project team are
responsible for managing and controlling.
The associated risks are restricted to site or project specific risks and as such are not considered
as a complete and final list of hazards that may arise.
