Dear Ms Atkinson,

I have received the council's letter of 16 April 2020 in respect of this planning application

Please could you clarify, does the council assess the validity and accuracy of the application, and specifically the environmental report and anticipated impacts of noise, traffic and pollution? And does the council undertake its own similar environmental assessments and reports, or does it just take the applicant's and its contractors' reports and conclusions at face value?

Thank you in advance.

Yours sincerely,
