Hi john

Re : 126711/TCA/2020 - 23 Millgate Lane

I have reviewed the Notification Of Intent relating the above address and can confirm there are no objections to the removal of the tree as indicated.

There are several issues with this tree, mainly the major internal decay which would prevent this tree from being TPO worthy.

I would suggest that a replacement tree should be planted to mitigate the loss and to maintain tree cover within the conservation area. A suitable replacement would be Liquidamber and Ginkgo genus.
