

R20 T28

Materials	Mild Steel, Pre Galvanised, Stainless Steel, Aluminium
Property	Rigid
Open area	46%
Thicknesses available	1mm 1.5mm 2mm 3mm 4mm
Weight	Enquire
Panel Sizes	1000 x 2000mm 1250 x 2500mm 1500 x 3000mm Bespoke to your sizes

R20 T28 Perforated Sheet

R20 T28 Perforated Sheet can be used in a wide range of different applications for internal and external applications such as balustrades, partitions, and cladding. The panels are available in a wide range of different thicknesses, materials and sheet sizes.

Our perforated sheets do not just come in standard sizes we can manufacture bespoke panels to your requirements.

Please contact us to discuss your requirements and next project so we can recommend the best product for your desired application.

Secondary finishes

Amron Architectural has researched a number of different secondary finish processes that work well with expanded mesh, perforated sheet, woven wire, and gratings. Different materials are subject to varying local environment, therefore secondary finishes can be applied to help achieve the desired colour, reflectivity, or where corrosion resistance characteristics are required. Available secondary finishes for this mesh:

> **Powder Coating**

> **Anodising**
