

## **Smoking Policy Manchester Piccadilly**

This policy applies to the venue operating under the control of Luxury Leisure in Manchester Piccadilly. The policy is effective from the opening date of the venue and aims to ensure effective operation of the venues smoking areas whilst preventing any issues which could be deemed as antisocial within the direct vicinity of the venue.

### **Key Principles of the Policy**

#### **Daytime Operation**

During the hours of 8am-9pm daily access will be provided for customers to smoking facility's located at both the front and rear entrances of the site.

These areas will have smoking bins provided for disposal of used cigarettes and will be regularly maintained by venue staff. Notices requesting customers of the premises to respect the local area and fellow residents of the area will be posted at the entrance to both smoking areas.

#### **Evening / Night time Operation**

Between the hours of 9pm and closing time no access will be permitted from the venue to the smoking facility's located to the rear of the site. Between these hours the doorway to the rear will act only as an entrance way and a door control system operated by venue staff will prevent customers exiting through this door to use the smoking facility's.

Customers wishing to access smoking facilities between the above stated hours will be directed to the front of the site where smoking will be permitted. In order to ensure no disturbance or excessive noise is created by customers using these facilities' the area will be monitored by venue staff. These staff members will take appropriate action with any customers found to be causing a disturbance which in extreme cases may see customers being prevented further access to the venue.
