100% Customer Rating for this product from 15 reviews

- 5 star

"Service rating : Great customer service Product : very sturdy, does the job"

- 5 star

"Service rating : Good service, quick delivery Product : Basic cycle hoops but well made and fully galvanised , bolts together easily and quick to assemble. Customers tend to use them 'in reverse' to enable rear of bike frame to be locked through metal hoops. Owners of expensive bikes will tend to avoid using them preferring more substantial racks elsewhere. Not very stable for certain bike tyre sizes"

- 5 star

"hi yes I ordered 2 sets of cycle racks 1x 4 cycle 1 x6 cycle they arrived a couple of days after ordering (brilliant) condition and appearance great assembly was quite easy so all in all I was very pleased with my purchase . They are now operational. thanks john caretaker w.p.s ."
