

OBJECTID	T. No	Common Name	Age	Height (m)	Crown Height (m)	Comment 1	Comment 2	Comment 3	Comment 4	Comment 5	Physiological Condition	Structural Condition	Life Expectancy	Safety Class	Recommendation 1	Recommendation 2	Recommendation 3	Priority	Inspection Frequency	Surveyor	Date	x	y	
1	1	Sycamore	Mature	16	5	Quad stemmed at base; 1no stem removed at ground level leaving approx 450mm diameter stump. Occluding slowly with no decay.	Otherwise tree is in good condition with no works required				Good	Good	40+ years	2	Monitor identified defect No action required				Low – To be carried out within 3 years	Every 18 Months	Greg Thorne	2/20/2019, 9:23 AM	-254323.9394	7030536.565
2	2	Holly	Mature	7	1									1					Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254329.3456	7030537.949	
3	3	Sycamore	Semi-Mature	12	4									1					Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254330.1056	7030538.272	
4	4	Sycamore	Early-Mature	12	4									1					Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254331.6916	7030538.448	
5	5	Hawthorn	Early-Mature	4	2	Located next to fence line.	Twin stemmed from base with fused stems and bark wounding present from ground level to 1m. Wounds occluding slowly	No works required			Good	Fair	<10 years	2	Monitor identified defect No action required				Low – To be carried out within 3 years	Every 18 Months	Greg Thorne	2/20/2019, 9:23 AM	-254334.0045	7030538.237
6	8	Sycamore	Early-Mature	14	5									1					Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254339.0916	7030537.801	
7	9	Sycamore	Early-Mature	14	5									1					Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254341.3259	7030538.775	
8	10	Hawthorn	Early-Mature	4	1									1					Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254341.3848	7030537.726	
9	11	Sycamore	Early-Mature	14	5									1					Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254343.0954	7030537.839	
10	12	Sycamore	Mature	16	5	Twin stemmed at base; 1no stem bifurcates at 2m with tight included union.	1no minor stem (150mm diameter) from base has been pruned to 0.5m above ground level. Bark wounds are occluding slowly.	Wounds from previous crown lifting are occluding slowly	Tree in otherwise good condition with no works required		Good	Fair	40+ years	2	Monitor identified defect No action required				Moderate – To be carried out within 12 months	Every 18 Months	Greg Thorne	2/20/2019, 9:23 AM	-254345.5463	7030537.638
11	6	Sycamore	Early-Mature	14	3									1					Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254335.9863	7030538.193	
12	7	Sycamore	Early-Mature	14	4									1					Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254337.7004	7030538.005	
13	13	Cherry	Semi-Mature	5	2									1					Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254350.2435	7030536.88	
14	14	Sycamore	Mature	16	5	Stem bifurcates at 0.5m with well formed union, although holding some water	Deadwood within crown; approx 40-60mm diameter and 1-3m in length	Minor deadwood within crown; approx 20-40mm diameter and 1-2m in length			Good	Fair	40+ years	2	Remove deadwood				Moderate – To be carried out within 12 months	Every 18 Months	Greg Thorne	2/20/2019, 9:23 AM	-254374.1796	7030530.86
15	15	Sycamore	Mature	16	2	Stem bifurcates at 0.5m with well formed union, although holding some water	Unbalanced crown due to neighbouring trees				Good	Fair	40+ years	2	Monitor identified defect No action required	Crown lift to 3m above ground level			Every 18 Months	Greg Thorne	2/20/2019, 9:23 AM	-254395.5473	7030532.066	
16	16	Beech	Semi-Mature	8	2									1					Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254394.0496	7030528.363	
17	19	Beech	Semi-Mature	8	2									1					Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254399.3313	7030528.759	
18	18	Beech	Semi-Mature	8	2									1					Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254397.2286	7030528.58	
19	17	Beech	Semi-Mature	8	2									1					Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254395.1455	7030528.222	
20	20	Sycamore	Mature	16	2	Stem bifurcates at 2.5m with well formed unions and codominant stems. Unbalanced crown due to neighbouring trees	Deadwood within crown; approx 40-60mm diameter and 1-3m in length	3no bark wounds at 1.5m are occluding slowly; no decay present. 20-30mm diameter in size			Good	Fair	40+ years	2	Remove deadwood	Crown lift to 3m above ground level			Moderate – To be carried out within 12 months	Every 18 Months	Greg Thorne	2/20/2019, 9:23 AM	-254405.9376	7030531.451
21	21	Sycamore	Mature	14	2	Stem bifurcates at 4m with well formed unions and codominant stems	Evidence of recent deadwood removal	Evidence of bacterial bleeding on stem at 1m			Fair	Fair	20-40 years	2	Monitor identified defect No action required				Moderate – To be carried out within 12 months	Every 18 Months	Greg Thorne	2/20/2019, 9:23 AM	-254428.3003	7030527.596
22	22	Beech	Young	10	3	Slender specimen due to competition for light								1	No action required				Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254431.772	7030527.773	
23	23	Beech	Young	6	1									1					Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254435.0672	7030527.45	
24	24	Sycamore	Mature	2	2	Tree previously felled at 1.8m; wound is not occluding. Evidence of regenerative growth on stem.					Fair	Good	<10 years	1	No action required				Every 3 Years	Greg Thorne	2/20/2019, 9:23 AM	-254437.7064	7030531.838	
25	25	Holly	Semi-Mature	4	1									1					Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254434.9877	7030532.957	
26	26	Sycamore	Semi-Mature	9	2									1	No action required				Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254429.5706	7030550.996	
27	27	Sycamore	Mature	14	4									1	No action required				Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254425.537	7030566.114	
28	28	Sycamore	Mature	16	2	Stem trifurcates at 2m with included unions and codominant stems.	Deadwood within crown; approx 40-60mm diameter and 1-3m in length	Evidence of bacterial bleeding to main stem at 1-1.5m			Fair	Fair	40+ years	2	Remove deadwood	Crown lift to 3m above ground level	Monitor identified defect No action required	Moderate – To be carried out within 12 months	Every 18 Months	Greg Thorne	2/20/2019, 9:23 AM	-254424.4307	7030571.52	
29	29	Sycamore	Mature	16	2	Single stemmed specimen situated between metal fence and brick wall; restricted access prevented detailed inspection of. Dense ivy on stem prevented detailed inspection; ivy has been recently severed at 1.5m	Stem is occluding metal mesh fencing.	Deadwood within crown; approx 20-40mm diameter and 1-2m in length			Fair	Fair	40+ years	2	Remove deadwood	Remove ivy and re-inspect	Monitor identified defect No action required	Moderate – To be carried out within 12 months	Every 18 Months	Greg Thorne	2/20/2019, 9:23 AM	-254422.1748	7030582.401	
30	30	Sycamore	Mature	16	4	Stem bifurcates at 4m; dense ivy on stem prevented detailed inspection of stem and unions. Ivy has been recently severed at 1.5m					Fair	Fair	40+ years	2	Remove ivy and re-inspect			Moderate – To be carried out within 12 months	Every 18 Months	Greg Thorne	2/20/2019, 9:23 AM	-254416.6794	7030595.384	
31	31	Sycamore	Mature	16	8	Single stemmed specimen located in forest school area.	Dense ivy on stem prevented detailed inspection of stem and unions. Ivy has been recently severed at 1.5m				Good	Fair	20-40 years	2	Remove ivy and re-inspect			Moderate – To be carried out within 12 months	Every 18 Months	Greg Thorne	2/20/2019, 9:23 AM	-254411.6338	7030612.535	
32	32	Holly	Semi-Mature	4	1									1	No action required				Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254408.2942	7030618.758	
33	33	Horse Chestnut	Mature	16	5	Single stemmed specimen located within forest school area	Evidence of Horse Chestnut Bleeding Canker from 0.5m to 12m, with 1no primary limb showing extensive dysfunctional and peeling bark. Significant deadwood within crown; 20-150mm diameter and 1-5m in length	Tree tag No 0952. Potentially protected tree; ascertain whether TPO'd	Seek permission to pollard tree to 4m and retain as habitat pole.		Poor	Poor	<10 years	3	Pollard to 4m			Moderate – To be carried out within 12 months	Every 6 Months	Greg Thorne	2/20/2019, 9:31 AM	-254400.5625	7030609.091	
34	34	Sycamore	Mature	16	6	Single stemmed specimen located within forest school area		Wounds from previous crown lifting are occluding slowly	Tree tag No 0953. Potentially protected tree; ascertain whether TPO'd		Good	Poor	40+ years	3	Remove deadwood			High – To be carried out within 3 months	Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254401.2748	7030616.022	
35	35	Sycamore	Mature	16	3	Single stemmed specimen located within forest school area	Hung up deadwood within upper crown	Wounds from previous crown lifting are occluding slowly	Tree tag No 0954. Potentially protected tree; ascertain whether TPO'd		Good	Fair	40+ years	3	Remove deadwood			High – To be carried out within 3 months	Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254395.9701	7030614.228	
36	36	Sycamore	Mature	2	2	Tree previously felled at 1.8m; wound is not occluding. Evidence of regenerative growth on stem.					Fair	Good	<10 years	1	No action required				Every 3 Years	Greg Thorne	2/20/2019, 9:23 AM	-254403.1536	7030631.891	
37	37	Sycamore	Mature	16	3	Single stemmed specimen located within forest school area					Good	Good	40+ years	1	No action required				Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254388.9252	7030638.771	
38	38	Sycamore	Mature	16	5	Single stemmed specimen located within forest school area					Good	Good	40+ years	1	No action required				Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254386.4517	7030649.237	
39	39	Field Maple	Semi-Mature	9	3	Twin stemmed specimen located within forest school area					Good	Good	10-20 years	1	No action required				Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254385.4986	7030651.25	
40	40	Field Maple	Young	7	2	Single stemmed specimen located close to boundary fence and public highway.	Dense ivy on stem and throughout crown prevented detailed inspection				Fair	Fair	10-20 years	2	Remove ivy and re-inspect			Moderate – To be carried out within 12 months	Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254379.9855	7030664.677	
41	41	Field Maple	Semi-Mature	7	2	Single stemmed specimen located close to boundary fence and public highway.	Dense ivy on stem and throughout crown prevented detailed inspection				Fair	Fair	10-20 years	2	Remove ivy and re-inspect			Moderate – To be carried out within 12 months	Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254381.0195	7030663.046	
42	42	Horse Chestnut	Mature	16	3	Single stemmed specimen located close to boundary fence and public highway.	Dense ivy on stem and throughout crown prevented detailed inspection; recently severed at 1.5m	Episcormic growth at base has been pruned to 1m in height - remove back to stem			Good	Fair	40+ years	2	Remove ivy and re-inspect	Remove episcormic growth		Moderate – To be carried out within 12 months	Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254375.5335	7030663.763	
43	43	Sycamore	Mature	16	7	Single stemmed specimen located close to boundary fence and public highway.	Dense ivy on stem and throughout crown prevented detailed inspection; recently severed at 1.5m				Good	Fair	40+ years	2	Remove ivy and re-inspect			Moderate – To be carried out within 12 months	Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254365.3325	7030659.401	
44	44	Lime	Mature	16	4	Single stemmed specimen located close to boundary fence and public highway.	Dense ivy on stem and throughout crown prevented detailed inspection; recently severed at 1.5m	Deadwood within crown, some above highway. Approx 40-100mm diameter and 1-4m in length.			Good	Fair	40+ years	3	Remove ivy and re-inspect	Remove deadwood		High – To be carried out within 3 months	Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254357.1433	7030658.568	
45	45	Horse Chestnut	Mature	6	1									1	No action required				Every 3 Years	Greg Thorne	2/20/2019, 9:31 AM	-254347.0317	7030656.795	
46	46	Holly	Mature	6	1									1	No action required				Every 3 Years	Greg Thorne	2/20/2019, 9:31 AM	-254326.7988	7030656.54	
47	47	Sycamore	Mature	17	6									1	No action required				Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254318.3165	7030646.474	
48	48	Horse Chestnut	Mature	16	4	Twin stemmed specimen located close to boundary fence and public highway.	Stem bifurcates at 1m with included union, holding decomposed organic matter	Deadwood within crown, some above highway. Approx 40-60mm diameter and 1-4m in length	Early cavity formation at pruning wound on 1no stem at 4.5m. Would 150mm diameter and occluding slowly.	Tree tag No 0973. Potentially protected tree; ascertain whether TPO'd	Good	Fair	40+ years	3	Remove deadwood	Monitor identified defect No action required		High – To be carried out within 3 months	Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254298.95	7030649.682	
49	49	Horse Chestnut	Mature	16	3	Multi stemmed from 1.5-3m with well formed unions	1no bark wound at base of stem; 100x 200mm in size. Occluding slowly with incipient decay present.	Evidence of bacterial wet rot exudes on stem at 1.5m	Deadwood within crown; approx 20-40mm diameter and 1-3m in length	Tree tag No 0974. Potentially protected tree; ascertain whether TPO'd	Fair	Fair	20-40 years	2	Remove deadwood	Monitor identified defect No action required		Moderate – To be carried out within 12 months	Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254300.4692	7030635.459	
50	50	Horse Chestnut	Mature	16	3	Multi stemmed from 1.5-3m with well formed unions	1no bark wound at base of stem; 100x 200mm in size. Occluding slowly with incipient decay present.	Evidence of bacterial wet rot exudes on stem at 1.5m	Deadwood within crown; approx 20-40mm diameter and 1-3m in length	Tree tag No 0974. Potentially protected tree; ascertain whether TPO'd	Fair	Fair	20-40 years	2	Remove deadwood	Monitor identified defect No action required		Moderate – To be carried out within 12 months	Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254302.6527	7030630.092	
51	51	Sycamore	Mature	14	4	Tree tag No 0975. Potentially protected tree; ascertain whether TPO'd							40+ years	1	No action required				Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254301.0378	7030625.038	
52	52	Horse Chestnut	Mature	17	3	Stem trifurcates at 2.5m with well formed unions.	Deadwood within crown; 20-40mm diameter and 1-2m in length	Pruning wounds to primary limbs from crown lifting are occluding slowly, some with incipient decay present	Tree tag No 0966. Potentially protected tree; ascertain whether TPO'd		Good	Good	20-40 years	2	Remove deadwood				Low – To be carried out within 3 years	Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254333.5883	7030637.341
53	53	Sycamore	Mature	17	4	Tree tag No 0967. Potentially protected tree; ascertain whether TPO'd	Acceptable condition at present							1	No action required				Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254338.6342	7030628.881	
54	54	Horse Chestnut	Mature	17	4	Tree tag No 0968. Potentially protected tree; ascertain whether TPO'd	Acceptable condition at present							1	No action required				Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254339.5527	7030616.609	
55	55	Sycamore	Mature	17	4	Tree tag No 0969. Potentially protected tree; ascertain whether TPO'd	Acceptable condition at present							1	No action required				Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254343.4411	7030596.222	
56	56	Sycamore	Mature	17	6	Tree tag No 0951. Potentially protected tree; ascertain whether TPO'd	Acceptable condition at present							1	No action required				Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254360.5091	7030595.131	
57	57	Sycamore	Mature	17	6	Tree tag No 0950. Potentially protected tree; ascertain whether TPO'd	Acceptable condition at present							1	No action required				Every 18 Months	Greg Thorne	2/20/2019, 9:31 AM	-254375.0464	7030594.453	
58	58	Sycamore	Mature	17	6	Tree tag No 0949. Potentially protected tree; ascertain whether TPO'd	Single stemmed specimen with unbalanced crown due to neighbouring trees	Deadwood within crown; approx 20-40mm diameter and 1-4m
