Hi Sue

Please find attached the proposals for the boundary treatment between Angel Gardens and 2 and 3 Angel Square, which proposes a simple weld-mesh fence between the two plots rather than the timber solution previously proposed.

This is what the two parties (Moda and Co-op) have agreed between them as an acceptable solution based on cost, durability, design and acknowledging it is ultimately a temporary solution prior to 2 and 3 Angel Square coming forward. You will also note that Moda have limited control over this given it is outside of their red line boundary.

I also have a sample of the service yard issued on Friday, so can you let me know a time for me to come up to the Town Hall and drop it off, or alternatively I can liaise with Jackie or Anthony to receive it from Lloyd Street. If you collect it, we would have a chance to discuss the attached also.

Kind regards

Mike
