30W White Horn Speaker 100VA IP66

Product Benefits

- Three wattage taps switchable with screwdriver no need for additional wiring
- White finish
- Constructed from ABS Plastic
- Supplied with a stainless steel mounting bracket

Information

The Magna IP66 horn loudspeaker provides excellent sound reproduction for more demanding sound installations. The highly efficient mini horn speaker is designed for 100V/70V line impedance distribution. It is constructed from sturdy ABS plastic and finished in white.

The horn has an integral transformer and power tapping which are easily selected from the rear of the unit using a screwdriver. Ideal for securing worksites, car parks, factories or any large outdoor area.

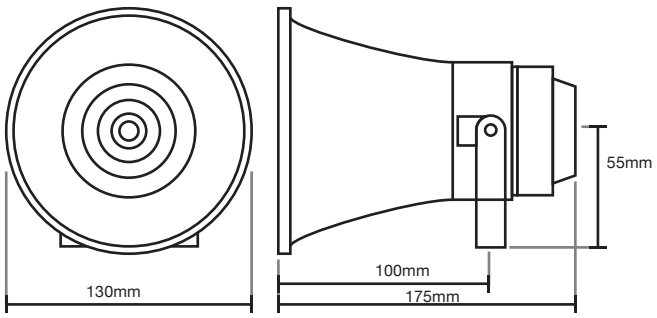

30W White Horn Speaker 100VA IP66

Applications

- 100V line distributed audio system
- Can be used with 8Ω systems

MODEL	IP66
Power Tap @ 100V	5W, 7.5W, 15W, 30W
Power Tap @ 70V	2.5W, 3.7W, 7.5W, 15W
Fixture Colour	White PAL 9016
Sound Pressure Level (1W/1M)	105dB
Max Sound Pressure Level (1M)	120dB
Frequency Response	500Hz – 7KHz
Dispersions 1KHz / 4KHz	210° / 45°
Connection Cable	1mm x two core 40cm length
Dimensions	130mm x 175mm
