Fixing Detail
Scale 1:5

Product Information:

- MODEL – Off Highway
- COLOURS – Orange / White
- FIXING – Threaded insert 22mmø NSE Type
- SECTION – 80mmø
- ABOVE GROUND – 1000, 800 or 650mm
- WEIGHT – 1.85 / 1.4Kg
- Ideal for access roads,car parks and traffic management application

Installation Guide:

Fixing Type NSE

- Core drill a 28mmø x 130mmø hole with relevant drill bit;
- Remove excess dust and debris from the hole using the blow out pump;
- Confirm whether NSE fixing of the Pole Cone can be fitted into the core. If the product lies higher than the road surface, drill the core to the required depth of 130mm;
- Pour the mixed epoxy glue into the core until its 20mm below the road surface;
- After the epoxy glue has been pumped into the hole, put the product into the core and press until the bottom part is in complete contact with the road surface.

–Refer to R KF2 resin COSHH Data MSDS sheets for more information

- Do not open the road to traffic before the resin has completely hardened; otherwise the product will sink or be displaced by traffic;
- After epoxy glue has hardened completely, the pole cones must be fastened and tested completely.

Notes:

1. Contractors to check dimensions and notify any discrepancies or errors to the company immediately.
2. Work to figured dimensions only and to be checked before commencement of work on site.
3. Do not scale off this drawing.
4. All dimensions in millimetres unless otherwise stated.
