The Manchester City Council hereby give notice in pursuance of the provisions of the Town and Country Planning Act 1990 of the following decision

Decision Approved

APPROVE - on the basis that the proposal is in accordance with the City Council's Unitary Development Plan, in particular the following policies and there are no material considerations of sufficient weight to indicate otherwise.

Policy H2.2 states that the Council will not normally allow development which will have an unacceptable impact on residential areas. It is not believed that the proposed development will have a detrimental impact in terms of noise, vibration, traffic generation, road safety and air pollution or through its scale and appearance.

Policy DB1 states general guidance towards new development proposals in Didsbury. In particular, when deciding development proposals the Council will seek to ensure that the Didsbury area remains an attractive location in which to

live and work and encourage commercial opportunities only where they will not cause harm to residential amenity.

Policy DC10.1 (Food & Drink Uses) states that in determining planning application for development involving the sale of hot food to be consumed off the premises the Council will have regard to, particularly in this instance:

i) The general location of the proposed development;
ii) The effect on the amenity of neighbouring residents;
iii) The storage and collection of refuse and litter.

Policy DC10.2 states further that the Council will normally accept the principle of development of this kind in the City Centre, industrial and commercial area and, at ground level, in local shopping parades of more than 8 shops or offices.

Policy DC10.4 states that where the Council considers food and drink premises to be acceptable in principle, conditions may be imposed in order to protect the amenity of nearby residents. Such conditions include limitations in terms of the hours of opening and the need to deal adequately with the storage of refuse and collection of litter.

Policy DC26.1 (Development & Noise) states that the Council intends to use the Development Control process to reduce the impact of noise on people living and working in, or visiting, the City. In giving effect to this intention, the Council will consider the effect of new development proposals, which are likely to be generators of noise.

Policy DC26.3 states that development likely to result in unacceptably high levels of noise will not be permitted in residential, near schools, hospitals, nursing homes and similar institutions and near open land used frequently for recreational purposes.
