Flood Risk

Whilst looking at the flood risk element of this application (if required), I am unsure if there is a particular document I need to fill in , but as this unit we are installing the new shopfront and Roller shuttering the shop shopfront is on the main Wilmslow road on a paved area. The rear of the shop backs onto a car park that slopes away from the rear entrance.

I can be contacted on 07813 090541 for further clairifaction.

Kind Regards

Paul Dodd
