Prefabricated steel sectional buildings

Secure sectional steel storage units
manufactured in Plastisol coated steel.
Available in a wide range of sizes
to meet your storage requirements

A multipurpose building designed to offer an instant permanent or temporary storage solution. Manufactured in factory finished panels for simple and rapid assembly, the unique design allows for erection, dismantling and re-siting in a matter of minutes. The Plastsiol cladding has a tough durable finish and is ideal where a combination of security and appearance is important to the user. Buildings are constructed entirely from steel for strength, security and to minimise the risk of vandal or fire damage. Fixings are internal with final security achieved via a sturdy padlock facility & a 5-lever mortice deadlock.

Available in 3 widths:
2.43M (8ft), 3.04M(10ft) and 3.65M (12ft)

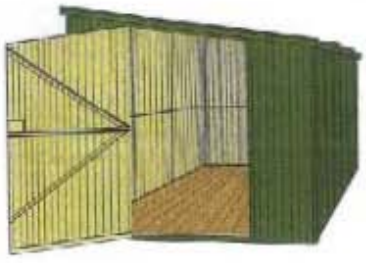

Heights:
2.20M sloping to 1.82 (7'3" to 6')
or
2.59 M sloping to 2.2M (8'6" to 7'3")

Lengths:
Any in multiples of 1.82M (6ft)
