WASTE MANAGEMENT STRATEGY

SCHEME PROPOSALS 5 Innes Ave Newton Heath

The proposal is to extend a detached house with front and rear gardens.

External Bin Store

A bin store area will be constructed measuring 2000mm x 1800mm to the rear garden of property. The storage area will be concrete paved with level access and secured with a 1500mm high timber fence. Level paved access will be provided to the rear service common pathway giving access to the kerbside collection point

.

The following containers will be provided to property

.

General refuse bin	240 litres
Garden waste	240 litres
Paper bin	140 litres
Glass bin	140 litres
Cans	50 litres

Container Collection

The householders will present their bins to the kerbside on collection day and return them to the storage area as soon as possible following collection
