Design and Access Statement

Red Lion, Withington, Manchester, M20 4BT

For Marston's Inn and Taverns

Use

Stud wall and internal door to enclose carvery deck.

Amount

The stud wall is 4.6 metres long.

Layout

As seen on the plan the wall sections off an area of the existing dance floor. This creates a new serving area for the carvery.

Scale

The overall scale of the new wall does not compromise the look of the surrounding listed building

Appearance

The appearance of the new partition and door will be cream eggshell painted T & G boarding with a brown gloss painted door.

Access

Marston's Inns and Taverns are committed to improving the services offered to our customers including disabled customers. It is our intention, where reasonable to comply with all current legislation including part M 2004.
