The Compton Flat range is a no-nonsense design that gives you a good looking and robust structure to suit any garage, storage or home working needs. All without having to break the bank.

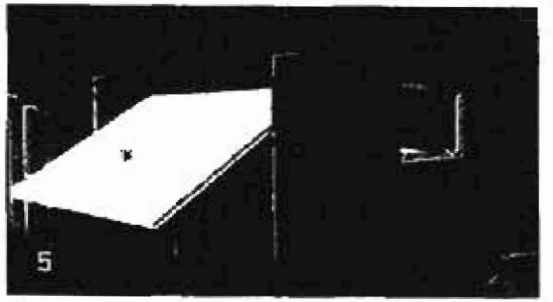

Designed for the long-term, the solid design uses concrete panels that are reinforced with steel, securely bolted together and internally sealed to provide a dry and secure space.

The maintenance-free 'Spar' finish blends long-lasting practicality with fit-in-anywhere looks whereas the new brick finishes look like real brick for a fraction of the price. An array of quality features further adds to the value. Full length vandal-resistant galvanised steel roof sheets with no joins to leak benefit from an anti-condensation treatment. And for the long-term you also get full preservative-treated timber on the front, side and window frame. You can also choose the exclusive maintenance-free options that come with the plastisol up-and-over door, personnel doors, fascias or PVCu fixed and opening windows.

Opposite: Flat Spar 2.59m x 4.93m (8'6" x 16'2") with standard white primed steel twin end side access doors. 2. Flat Spar 2.74m (9'0") wide with optional cedar door. 3. Flat Spar Twin 5.72m (18'9") wide with optional plastisol coated fascias and side door, PVCu window and brick effect front posts. 4. Flat Spar 2.90m (9'6") wide with Georgian style maintenance free plastisol coated up and over door, brick finish front posts, plastisol fascia, PVCu double glazed window and plastisol personnel door. 5. Flat Brick Buff Finish 2.59m (8'6") wide with white PVCu 1.22m (4'0") double glazed windows.

Real value without compromise.
