Dear Sir,

Re: CRIME IMPACT STATEMENT ADDENDUM 2 – Plots Substitutions at Site 5, Moston.

Thank you for the revised site layout plan (Rev Y) you have sent through for the above development.

I note the plot substitutions to Plots 62 to 76 and 82 and can confirm that, as long as the dwellings and designed and constructed in accordance with the previously prepared Crime Impact Statement (CIS) and the Secured By Design (SBD) Checklist dated 14th July 2012 (attached), the amended scheme is acceptable. As discussed previously, the Plots served by rear parking courts will not achieve SBD accreditation without the installation of automatic vehicular gates.

Please contact my colleague Patrick Babb, on 0161 856 5996 or patrick.babb@designforsecurity.org, approximately 1 to 2 weeks before handover to organise a final inspection.

Yours faithfully

Bradley Hart MTCP
Consultant
