3. Description of Proposed Works

Please describe the proposed works:

I have an end terrace house with an existing utility room, which is, half of the length of the house, with a flat roof.
I would like to extend the utility room 1 metre (approx) to reach the full length of the house and change the roof to a pitched roof.

$Date: 2007/08/22 15:20:03 $ $Revision: 1.52 $

I would like to make a bigger hole in the supporting wall at the back of the house to make a large kitchen area, into

P.T.O

the utility room.

I have had drawings done by an architect and have employed Structural Engineers to calculate the steel size required.

The utility room is single storey building.

There wasn't any evidence of a planning application, when I bought the house, two years ago. So I am unsure, when the utility room was originally added to the house.

I have attached the drawings. The structural engineer's calculations will be ready around 20/08/2009, which I can send on, if required.
