01 Provided Parking

Travel Plan

10 Roberts Street
Manchester
M3 1EY

Provided Parking

The proposed college will provide 24 car parking spaces that already exist and will be retained. These spaces are on Robert Street and will be directly outside the proposed college, providing easy and safe access for those using the spaces. There will be two disabled car parking spaces provided within the 24 that already exist and these will be directly outside the college (these are shown in blue on the site plane). The standard car parking spaces will be 2.5 meters by 5.5 meters and the disabled space will measure 2.5 meters by 6.6 meters, this will leave 3 meters of road available for other road users to use the Robert Street.
