ABLE CANOPIES
We have it covered!

Item	The Welford Technical Specification
Available systems	Available as a free standing canopy, walkway system and entrance canopy
Spanning distance	A maximum spanning capacity of 9 metre
Roof Panels	Installed with 5mm polycarbonate sheets
No visible fixings	The glazing bar is tension fixed at the base creating no visible fixings
Seals	The Welford is fully gasketed preventing the need for silicon sealants
In-built drainage	Carefully designed with in-built drainage and effective seals
Choice of colour	Polycarbonate panels are available in clear, opal and bronze
Finish	The standard finish is brushed aluminium but this can be powder coated to any specified colour
Installation	All installation teams have received extensive health and safety training. All have been CRB checked
Maintenance Free	Our canopies require only periodic cleaning. To clean the roof we recommend a solution of warm water and a non-abraisive cleaner
Vandal & shatter resistant	Exceptional impact resistance particularly suitable for use in areas where vandalism is a problem
Post protection	High visibility yellow Able Post Pads which carry a 1 year guarantee
Temperature range	The polycarbonate's mechanical performance is known to remain stable in prolonged in temperatures ranging from -40° C to +100° C
Excellent fire performance	The polycarbonate used on our system is a self-ventilating material that softens at relatively low temperatures allowing fire, smoke and hot gasses to escape. (Class 1(Y) deemed SAA)
