M2 6LE

15th July 08

Dear Peter,

Re application number 086911/FO/2008

Thank you for your recent correspondence. I hope to address your points as follows:

1. Where can I obtain a scaled plan (scale 1:1250)? If you can let me know that would be great as I have no idea.

2. There will be no external alterations.

3. No external equipment will be required.

4. The area for which I am applying for change of use is a previous office/massage room on the 2nd floor of number 38 John Dalton Street.

5. The only refuse will be paper towels, which will average one bag every three weeks. No other waste is expected. I am intending on putting the waste with the waste from the hairdressers below. I have discussed this with the manager and he is happy for this to happen.

6. No vehicles or servicing is required.

7. Disabled access can be achieved through front of the building from John Dalton Street.

I look forward to your advice regarding point 1. I am away from the 25th July until the 2nd of September so please correspond to the above address in the meantime and I will respond when I return.

Yours Faithfully,

Dr Iain Lea
