PART 1 Of The Planning Register

Dear Sir or Madam,

I am writing to reavest permission to fell three trees and remove two bushes on my property (addaress above)

This is for two reasons. Primarily this is because the trees persist in blocking the drains. The result of this is that when it rains heavily, my yard and garden is flooded with raw sewage and my neighbours (57) basement is flooded with sewage also.

The second reason is that our fence is 25 years old and the trees have made it unstable and in need of replacement.

We are disappointed to have to reqvest the removal of these trees but we have two children and the drains problem represents a hazard to their health.

The work that we world like to do is shown on the accompanying sketch.

Kind Regards

(Mrs)
