Hi Emily,

As discussed on the phone,
I have attached a floor plan with the lift highlighted and the route to our premises shown in red.

Once you are on the first floor there are no more steps.

We have a clinic in London and Edinburgh. In our experience we normally deal with 1 to 2 clients a day.

If any client has additional needs this is discussed prior to them visiting as all our consultations are by appointment only. We would be as flexible and as accommodating as required.

I have spoken to the leaseholder of the building and they have confirmed that there is a general waste bin in the communal area for us to use. It is emptied daily.

The size is 1370 height, 1260 width and 990 depth.

We will arrange for a monthly sharps collections from the premises. As we will be practising micro pigmentation there will be no eating or drinking on the premises so no food waste.

Most of our admin is completed on computers but what is not, for example consent forms etc will be stored at the premises.

We do not anticipate any rubbish to be produced by ourselves.

Kind regards,

Nina Piris

Hi Emily,

In response to your two questions
1. I have attached a map showing where the lift is in Barton Arcade. Once you are on the first floor there are no more steps.it is completely accessible for wheelchair users.
There is a dentist on the same floor as us and they have no issues with disabled clients.

2. There is one general waste bin in the communal area for us to use. It is emptied daily. The size is 1370 height, 1260 width and 990 depth.
Our Rubbish bins (there are one in each room) will be transferred to the communal bin daily. We will arrange for a monthly sharps collections from the premises.

I hope this answers all your questions.
Please don't hesitate to contact me if you need anything else.
Kind regards,

Nina

Dear Nina,

Thank you for the further information submitted on 12th September, there are now only two points that require further information as follows:

1. Please provide a drawing that shows the location of Suite 17 and the location of the existing lifts within the building. Please annotate these on the drawing and also confirm that the floor level between the lift and Suite 17 and throughout Suite 17 is level. Please also assess the possibility of implementing measures to improve access for people with other disabilities such as hearing loops, contrasting colours etc.
2. Please confirm the size and number of communal bins that would be available for the disposal of each type of recyclable waste and general waste and confirm the frequency of collections of the communal waste from the property. Please also confirm the size of bins that would be provided within the suite and confirm the frequency of transfer to the communal bin store.

Once we have this information I can arrange for the application to be validated.

Please arrange for this to be submitted within 10 working days of the date of this email.
