MANCHESTER CITY COUNCIL

Important Planning permission & notices of consent

Compliance with conditions

- Your planning approval or consent is attached. It will contain conditions that you must comply with.
- Please read the conditions and understand their requirements and restrictions, for example submission and approval of details or measures to protect trees.
- Some conditions will require action before you start development and it is imperative that you seek to have these discharged before any work commences.
- Whilst every effort has been made to group conditions logically, it is your responsibility to ensure that you are aware of the requirements and/or restrictions of all conditions.
- If you fail to comply with the conditions this may result in a breach of planning control and this may lead to enforcement action.
- Failure to comply with conditions may also result in the development not being lawful.
- It is in your interests to demonstrate that conditions have been complied with. Failure to do so may cause difficulties if the property is sold or transferred.
- A fee is payable for each request to discharge conditions.
- For advice on any of these matters, please contact Planning, Manchester City Council, PO Box 532, Town Hall, Manchester M60 2LA or email planning@manchester.gov.uk

Part 1 – Particulars of the application/development

Proposal: Erection of detached building to form new fish market and associated offices and car parking and servicing areas following demolition of existing building.

Location: New Smithfield Market, Whitworth Street East, Manchester, M11 2WJ

Date of application: 22 April 2013

Application number: 102245/FO/2013/N2

Part 2 – Particulars of decision

Manchester City Council gives notice that the development referred to in Part 1 has been **Approved** in accordance with the application and plans submitted subject to the condition(s) listed below (if any).

Article 31 Declaration

The local planning authority has worked with the applicant in a positive and proactive manner when dealing with this planning application. The applicant did seek pre-application advice from the local planning authority prior to submission and this advice was applied to the proposals. As the proposal is deemed to be acceptable and in compliance with planning policy, no problems have arisen in this case.

Condition(s) attached to this decision

1) The development must be begun not later than the expiration of three years beginning with the date of this permission.

Reason - Required to be imposed pursuant to Section 91 of the Town and Country Planning Act 1990.

2) The development hereby approved shall be carried out in accordance with the following drawings and documents:

The application form, the Design and Access Statement, the Sustainability Statement, the Crime Impact Statement, the Transport Statement, the waste Management Statement and the drawings numbered 2442-100, 2442-101, 2442-102, 2442-300 and 2442-200, stamped as received by the Local Planning Authority on the 22nd April 2013.

Reason - To ensure that the development is carried out in accordance with the approved plans. Pursuant to policies SP1, EC1, EC5, T2, EN18 and DM1 of the Core Strategy.

3) The development hereby approved shall be constructed in the materials to be used on the external elevations of the development, as outlined within the Application form and the Design and Access Statement and as shown on the drawing numbered 2442-300 received by the Local Planning Authority by email on the 22nd April 2013, subject to the submission of samples and specifications of the materials to be used prior to the use of the materials on site.

Reason - To ensure that the appearance of the development is acceptable to the City Council as local planning authority in the interests of the visual amenity of the area within which the site is located, as specified in policies SP1 and DM1 of the Core Strategy.

4) No development shall commence until a hard and soft landscaping treatment scheme has been submitted to and approved in writing by the City Council as local planning authority. The approved scheme shall be implemented not later than 12 months from the date the buildings are first occupied. If within a period of 5 years from the date of the planting of any tree or shrub, that tree or shrub or any tree or shrub planted in replacement for it, is removed, uprooted or destroyed or dies, or becomes, in the opinion of the local planning authority, seriously damaged or defective, another tree or shrub of the same species and size as that originally planted shall be planted at the same place.

Reason - To ensure that a satisfactory landscaping scheme for the development is carried out that respects the character and visual amenities of the area, in accordance with policies SP1, EN9 and DM1 of the Core Strategy.

5) In this condition "retained tree" means an existing tree, shrub or hedge which is to be as shown as retained on the approved plans and particulars; and paragraphs (a) and (b) below shall have effect until the expiration of 5 years from the date of the occupation of the building for its permitted use.

(a) No retained tree shall be cut down, uprooted or destroyed, nor shall any retained tree be topped or lopped other than in accordance with the approved plans and particulars, without the written approval of the local planning authority. Any topping or lopping approved shall be carried out in accordance with British Standard 5387 (Trees in relation to construction)
(b) If any retained tree is removed, uprooted or destroyed or dies, another tree shall be planted at the same place and that tree shall be of such size and species, and shall be planted at such time, as may be specified in writing by the local planning authority.
(c) The erection of fencing for the protection of any retained tree shall be undertaken in accordance with the approved plans and particulars before any equipment, machinery or materials are brought on to the site for the purposes of the development, and shall be maintained until all equipment, machinery and surplus materials have been removed from the site. Nothing shall be stored or placed in any area fenced in accordance with

this condition and the ground levels within those areas shall not be altered, nor shall any excavation be made, without the written consent of the local planning authority.

Reason - In order avoid damage to trees/shrubs adjacent to and within the site which are of important amenity value to the area and in order to protect the character of the area, in accordance with policies EN9 and EN15 of the Core Strategy.

6) All tree work should be carried out by a competent contractor in accordance with British Standard BS 3998 "Recommendations for Tree Work".

Reason - In order avoid damage to trees/shrubs adjacent to and within the site which are of important amenity value to the area and in order to protect the character of the area, in accordance with policies EN9 and EN15 of the Core Strategy.

7) Prior to the commencement of any site clearance, demolition or construction works on site, a car parking management strategy should be submitted to and approved in writing by the Local Planning Authority, which should include a strategy for maximising car parking availability during the demolition and construction phases and to minimise the impact on other market users. The development shall then be constructed in accordance with the approved strategy.

Reason - To ensure that there is adequate parking for the development proposed throughout the construction process and when the building is occupied in order to comply with Policies SP1, DM1 and T2 of the Core Strategy for the City of Manchester.

8) No part of the development shall be operational until space and facilities for bicycle parking have been provided in accordance with details shown on the drawings numbered 2442-102 and 2442-300, submitted on the 22nd April 2013. The approved space and facilities shall then be retained and permanently reserved for bicycle parking, unless otherwise agreed in writing with the City Council as the Local Planning Authority.

Reason - To ensure that adequate provision is made for bicycle parking so that persons occupying or visiting the development have a range of options in relation to mode of transport in order to comply with Policies T2, SP1 and DM1 of the Core Strategy.

9) Prior to the commencement of the development hereby approved, a scheme for the drainage of surface water from the new development shall be submitted to and approved in writing by the City Council as the Local Planning Authority. The development shall then be constructed in accordance with the approved scheme and shall be retained as such while the development is occupied.

Reason - To prevent the increased risk of flooding, to improve and protect water quality and ensure future maintenance of the surface water drainage system, pursuant to policy EN14 of the Core Strategy.

10) a) Before the development hereby approved commences, a report (the Preliminary Risk Assessment) to identify and evaluate all potential sources and impacts of any ground contamination, groundwater contamination and/or ground gas relevant to the site shall be submitted to and approved in writing by the City Council as local planning authority. The Preliminary Risk Assessment shall conform to City Council's current guidance document (Planning Guidance in Relation to Ground Contamination).

In the event of the Preliminary Risk Assessment identifying risks which in the written opinion of the Local Planning Authority require further investigation, the development

shall not commence until a scheme for the investigation of the site and the identification of remediation measures (the Site Investigation Proposal) has been submitted to and approved in writing by the City Council as local planning authority.

The measures for investigating the site identified in the Site Investigation Proposal shall be carried out, before the development commences and a report prepared outlining what measures, if any, are required to remediate the land (the Site Investigation Report and/or Remediation Strategy) which shall be submitted to and approved in writing by the City Council as local planning authority.

b) When the development commences, the development shall be carried out in accordance with the previously agreed Remediation Strategy and a Completion/Verification Report shall be submitted to and approved in writing by the City Council as local planning authority.

In the event that ground contamination, groundwater contamination and/or ground gas, not previously identified, are found to be present on the site at any time before the development is occupied, then development shall cease and/or the development shall not be occupied until, a report outlining what measures, if any, are required to remediate the land (the Revised Remediation Strategy) is submitted to and approved in writing by the City Council as local planning authority and the development shall be carried out in accordance with the Revised Remediation Strategy, which shall take precedence over any Remediation Strategy or earlier Revised Remediation Strategy.

Reason - To ensure that the presence of or the potential for any contaminated land and/or groundwater is detected and appropriate remedial action is taken in the interests of public safety, pursuant to policies DM1 and EN18 of the Core Strategy.

11) Deliveries, servicing and collections, including waste collections shall not take place outside the following hours: 07:30 to 20:00, Monday to Saturday, no deliveries/waste collections on Sundays/Bank Holidays.

Reason - To safeguard the amenities of the occupiers of nearby residential accommodation pursuant to Policies DM1 and SP1 of the Core Strategy.

12) Prior to the first occupation of the building hereby approved, the hours of operation for the fish market shall be submitted to and approved in writing by the Local Planning Authority. The building shall then be operated in accordance with these approved details.

Reason - To safeguard the amenities of the occupiers of nearby accommodation pursuant to policies SP1 and DM1 of the Core Strategy.

13) Before development commences a scheme for the extraction of any fumes, vapours and odours from the premises hereby approved shall be submitted to, and approved in writing by, the City Council as local planning authority. The approved scheme shall be implemented prior to occupancy and shall remain operational thereafter.

Reason - In the interests of the amenities of the occupiers nearby properties in order to comply with saved policy of the Unitary Development Plan for the City of Manchester and policies SP1 and DM1 of the Core Strategy.

14) Before the building hereby approved is first occupied it shall be insulated in accordance with a scheme submitted to and approved in writing by the City Council as

local planning authority in order to secure a reduction in the level of noise emanating from the property. The development shall then be constructed in accordance with these approved details.

Reason - To safeguard the amenities of the occupiers of nearby accommodation, pursuant to policies SP1 and DM1 of the Core Strategy.

15) Before first occupation of the development any externally mounted ancillary equipment shall be acoustically insulated in accordance with a scheme submitted to and approved in writing by the City Council as local planning authority in order to secure a reduction in the level of noise emanating from the equipment. The development shall then be completed in accordance with these approved details.

Reason - To safeguard the amenities of the occupiers of nearby residential accommodation, pursuant to policies SP1 and DM1 of the Core Strategy.

16) The development hereby approved shall be implemented in full accordance with the 'Waste Management Statement' completed by GD Lodge Archiects dated April 2013 submitted to the Local Planning Authority on the 22nd April 2013 which includes a scheme for the disposal of refuse including segregated waste for recycling. The details of this approved scheme shall be implemented as part of the development and shall remain in situ whilst the use or development is in operation.

Reason - In the interests of amenity and public health, pursuant to policies SP1 and DM1 of Core Strategy.

17) In accordance with the principles outlined within the Crime Impact Statement submitted on the 22nd April 2013, no development shall commence until details of the measures to be incorporated into the development (or phase thereof) to demonstrate how secure by design accreditation will be achieved have been submitted to and approved in writing by the City Council as local planning authority. The development shall only be carried out in accordance with these approved details. The development hereby approved shall not be occupied or used until the Council as local planning authority has acknowledged in writing that it has received written confirmation of a secured by design accreditation.

Reason - To reduce the risk of crime pursuant to policies SP1 and DM1 of the Core Strategy and to reflect the guidance contained in the National Planning Policy Framework.

18) The development hereby approved shall achieve a post-construction Building Research Establishment Environmental Assessment Method (BREEAM) rating of at least a 'very good' rating. Post construction review certificate(s) shall be submitted to, and approved in writing by the City Council as local planning authority, before any of the buildings hereby approved are first occupied.

Reason - In order to minimise the environmental impact of the development, pursuant to policies SP1, T1-T3, EN4-EN7 and DM1 of the Core Strategy, policy DP3 of Regional Spatial Strategy for the North West (RSS), and the principles contained within The Guide to Development in Manchester SPD (2007), and the National Planning Policy Framework.

19) No demolition works shall be undertaken until a demolition methodology statement (including mitigation measures) has been submitted to and approved in writing by the

City Council as local planning authority. The demolition methodology statement strategy shall be implemented in full throughout the demolition period.

Reason - To safeguard the amenities of nearby residents, pursuant to policies SP1 and DM1 of the Core Strategy for Manchester.

20) The details of an emergency telephone contact number for shall be displayed in a publicly accessible location on the site from the commencement of development until construction works are complete.

Reason - To prevent detrimental impact on the amenity of nearby residents and in the interests of local amenity in order to comply with policies SP1 and DM1 of the Core Strategy.

21) A site strategy for the facilities for keeping roads clear of mud and debris shall be submitted to and approved in writing by the City Council as local planning authority prior to the development of each phase commencing. The approved facilities shall be retained on site during the construction period and shall be positioned to allow use throughout each phase of construction.

Reason - To ensure that the proposed development does not cause unacceptable amounts of dust in the vicinity and to ensure that local roads are kept clear of mud, pursuant to policies SP1 and DM1 of the Core Strategy.

Informatives

This permission does not grant approval under Building Regulations.

The proposed development lies within an area which could be subject to current coal mining or hazards resulting from past coal mining. Please read the Standing Advice from the Coal Authority in Appendix A.

Date: 22 July 2013

Signed: 

Julie Roscoe
Head of Planning
Manchester City Council, P O Box 532, Town Hall, Manchester M60 2LA

Notes

1. This permission refers only to that required under the Town and Country Planning Act 1990 does not include any consent or approval under any other enactment, byelaw, order or regulation.

2 If the applicant is aggrieved by the decision of the local planning authority to refuse permission or approval for the proposed development, or to grant permission or approval subject to conditions, he may appeal to the First Secretary of State in accordance with Section 78(1) of the Town and Country Planning Act 1990 within six months of the date of the notice of the decision.

The Planning Inspectorate have introduced an online appeals service that can be used to make appeals online. This service is available through the Appeals area of the Planning Portal www.planningportal.gov.uk/pcs. The Inspectorate will publish details of your appeal on the internet (on the Appeals area of the Planning Portal).

This may include a copy of the original planning application form and any supporting documents supplied to the local planning authority. By you or your agent, together with the completed appeal form and information you submit to the Planning Inspectorate. Please ensure that you only provide information, including personal information, that you are happy will be made available to others in this way. If you supply personal information belonging to a third party please ensure you have their permission. More detailed information about data protection and privacy matters is available on the Planning Portal.

Alternatively, appeals can be made on a form which is obtainable from Planning Inspectorate, Customer Support Unit, Room 3/15, Eagle Wing, Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 or by telephone 0117 372 6372.

The First Secretary of State has power to allow a longer period for the giving of a notice of appeal but he will not normally be prepared to exercise this power unless there are special circumstances that excuse the delay in giving notice of appeal.

3. The statutory requirements are those set out in Section 79(6) of the Town and Country Planning Act 1990, namely Sections 70(1) and 72(1) of the Act.

4. If either the local planning authority of the First Secretary of State refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances, the owner may serve a purchase notice on the Council in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990

5. In certain circumstances, a claim may be made against the local planning authority for compensation, where permission is refused or granted subject to conditions by the First Secretary of State on appeal or on a reference of the application to him. The circumstances in which such compensation is payable are set out in Section 114 of the Town and Country Planning Act 1990.

Appendix A – Standing Advice Regarding Coalfield Area

The proposed development lies within an area which could be subject to current coal mining or hazards resulting from past coal mining. Such hazards may currently exist, be caused as a result of the proposed development, or occur at some time in the future. These hazards include:

- Collapse of shallow coal mine workings.
- Collapse of, or risk of entry into, mine entries (shafts and adits).
- Gas emissions from coal mines including methane and carbon dioxide.
- Spontaneous combustion or ignition of coal which may lead to underground heatings and production of carbon monoxide.
- Transmission of gases into adjacent properties from underground sources through ground fractures.
- Coal mining subsidence.
- Water emissions from coal mine workings.

Applicants must take account of these hazards which could affect stability, health & safety, or cause adverse environmental impacts during the carrying out their proposals and must seek specialist advice where required. Additional hazards or stability issues may arise from development on or adjacent to restored opencast sites or quarries and former colliery spoil tips.

Potential hazards or impacts may not necessarily be confined to the development site, and Applicants must take advice and introduce appropriate measures to address risks both within and beyond the development site. As an example the stabilisation of shallow coal workings by grouting may affect, block or divert underground pathways for water or gas.

In coal mining areas there is the potential for existing property and new development to be affected by mine gases, and this must be considered by each developer. Gas prevention measures must be adopted during construction where there is such a risk. The investigation of sites through drilling alone has the potential to displace underground gases or in certain situations may create carbon monoxide where air flush drilling is adopted.

Any intrusive activities which intersect, disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) require the prior written permission of the Coal Authority. Such activities could include site investigation boreholes, digging of foundations, piling activities, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes.
Failure to obtain Coal Authority permission for such activities is trespass, with the potential for court action. In the interests of public safety the Coal Authority is concerned that risks specific to the nature of coal and coal mine workings are identified and mitigated.

The above advice applies to the site of your proposal and the surrounding vicinity. You must obtain property specific summary information on any past, current and proposed surface and underground coal mining activity, and other ground stability information in order to make an assessment of the risks. This can be obtained from The Coal Authority's Property Search Service on 0845 762 6848 or at www.groundstability.com
