IMPORTANT

Planning Permission and Notices of Consent

Compliance with Conditions

- Your planning approval or consent is attached. It will contain conditions that you must comply with.
- Please read the conditions and understand their requirements and restrictions, for example submission and approval of details or measures required to protect trees.
- Some conditions will require action before you start the development and it is imperative that you seek to have these discharged before any work commences.
- If you fail to comply with the conditions this may result in a breach of planning control and this may lead to enforcement action.
- Failure to comply with conditions may also result in the development not being lawful.
- It is in your interests to demonstrate that conditions have been complied with. Failure to do so may cause difficulties if the property is sold or transferred.
- A fee of £85 is payable for each request to discharge conditions.
- For advice on any of these matters, please contact the Planning Service, Manchester City Council, PO Box 463, Manchester M60 3NY or email planning@manchester.gov.uk

Town and Country Planning Act 1990

PLANNING PERMISSION

MANCHESTER CITY COUNCIL

Name and Address of Applicant	Name and Address of Agent
Aeroworks C/o P H Property Holdings 4 Regent Street Knutsford Cheshire WA16 6GR	Stephenson Bell Aeroworks 5 Adair Street Manchester M1 2NQ

Part I – Particulars of Application

Date of Application	Application ref. no.
15 December 2008	088607/FO/2008/C2

Particulars and location of development:

Alterations to building elevations facing Charlotte Street and George Street consisting of display of temporary art work

3 Charlotte Street
Manchester
M1 4HB

Part II – Particulars of Decision

The Manchester City Council hereby give notice in pursuance of the provisions of the Town and Country Planning Act 1990 of the following decision

Decision Temporary Approval
On the basis that the proposal is in accordance with the City Council's Unitary Development Plan in particular policies RC4, DC18.1 and DC19.1 in that it would be related to redevelopment of an unsightly building, would assist in the positive contribution the approved development would make the to area and would not be harmful to the setting of the adjacent listed buildings or conservation area.
Date of Decision 5 February 2009

for the carrying out of development referred to in Part 1 hereof in accordance with the application and plans submitted subject to the following conditions:

Part III – Conditions and Reasons

1) The permission hereby granted is for a limited period only, expiring on 1 December 2009 and the works comprising the development for which permission is hereby granted are required to be removed on or before that date.

Reason - The elevational alterations are of a temporary nature only and are not considered acceptable as a permanent feature on this building in order to comply with policy RC4 of the Unitary Development Plan for the City of Manchester.

2) The development hereby approved shall be carried out in accordance with the following drawings and documents unless otherwise agreed in writing by the City Council as Local Planning Authority:

Drawing number al(05)001, with the application site edged in red, stamped as received by the Local Planning Authority on 15 December 2008
Drawing number al(05)002, with the application site edged in red, stamped as received by the Local Planning Authority on 15 December 2008
Drawing number al(05)054, stamped as received by the Local Planning Authority on 15 December 2008
Drawing number al(05)055, stamped as received by the Local Planning Authority on 15 December 2008

Reason - To ensure that the development is carried out in accordance with the approved plans. Pursuant to policy RC4 of the Manchester Unitary Development Plan.

Signed……

Peter Babb, Head of Planning

on behalf of the Council
Town Hall,
Manchester M60 3NY

NOTES

1. Leaflets attached:

2. This permission refers only to that required under the Town and Country Planning Act 1990 does not include any consent or approval under any other enactment, byelaw, order or regulation**.**

3. If the applicant is aggrieved by the decision of the local planning authority to refuse permission or approval for the proposed development, or to grant permission or approval subject to conditions, he may appeal to the First Secretary of State in accordance with Section 78(1) of the Town and Country Planning Act 1990 within six months of the date of the notice of the decision.

The Planning Inspectorate have introduced an online appeals service that can be used to make appeals online. This service is available through the Appeals area of the Planning Portal – www.planningportal.gov.uk/pcs. The Inspectorate will publish details of your appeal on the internet (on the Appeals area of the Planning Portal).

This may include a copy of the original planning application form and any supporting documents supplied to the local planning authority. By you or your agent, together with the completed appeal form and information you submit to the Planning Inspectorate. Please ensure that you only provide information, including personal information, that you are happy will be made available to others in this way. If you supply personal information belonging to a third party please ensure you have their permission. More detailed information about data protection and privacy matters is available on the Planning Portal.

Alternatively, appeals can be made on a form which is obtainable from Planning Inspectorate, Customer Support Unit, Room 3/15, Eagle Wing, Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 or by telephone 0117 372 6372.

The First Secretary of State has power to allow a longer period for the giving of a notice of appeal but he will not normally be prepared to exercise this power unless there are special circumstances that excuse the delay in giving notice of appeal. The First Secretary of State is not required to entertain an appeal if it appears to him that permission for the proposed development could not have been granted by the local planning authority, or could not have been so granted otherwise than subject to the conditions imposed by them, having regard to the statutory requirements to the provisions of the development order, and to any directions given under the order. He does not in practice refuse to entertain appeals solely because the decision of the local planning authority was based on a direction given by him.

4. The statutory requirements are those set out in Section 79(6) of the Town and Country Planning Act 1990, namely Sections 70(1) and 72(1) of the Act.

5. If either the local planning authority of the First Secretary of State refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state

nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances, the owner may serve a purchase notice on the Council in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990

6. In certain circumstances, a claim may be made against the local planning authority for compensation, where permission is refused or granted subject to conditions by the First Secretary of State on appeal or on a reference of the application to him. The circumstances in which such compensation is payable are set out in Section 114 of the Town and Country Planning Act 1990.

Appendix A – Standing Advice Regarding Coalfield Area

The proposed development lies within an area which could be subject to current coal mining or hazards resulting from past coal mining. Such hazards may currently exist, be caused as a result of the proposed development, or occur at some time in the future. These hazards include:

- Collapse of shallow coal mine workings.
- Collapse of, or risk of entry into, mine entries (shafts and adits).
- Gas emissions from coal mines including methane and carbon dioxide.
- Spontaneous combustion or ignition of coal which may lead to underground heatings and production of carbon monoxide.
- Transmission of gases into adjacent properties from underground sources through ground fractures.
- Coal mining subsidence.
- Water emissions from coal mine workings.

Applicants must take account of these hazards which could affect stability, health & safety, or cause adverse environmental impacts during the carrying out their proposals and must seek specialist advice where required. Additional hazards or stability issues may arise from development on or adjacent to restored opencast sites or quarries and former colliery spoil tips.

Potential hazards or impacts may not necessarily be confined to the development site, and Applicants must take advice and introduce appropriate measures to address risks both within and beyond the development site. As an example the stabilisation of shallow coal workings by grouting may affect, block or divert underground pathways for water or gas.

In coal mining areas there is the potential for existing property and new development to be affected by mine gases, and this must be considered by each developer. Gas prevention measures must be adopted during construction where there is such a risk. The investigation of sites through drilling alone has the potential to displace underground gases or in certain situations may create carbon monoxide where air flush drilling is adopted.

Any intrusive activities which intersect, disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) require the prior written permission of the Coal Authority. Such activities could include site investigation boreholes, digging of foundations, piling activities, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes.

Failure to obtain Coal Authority permission for such activities is trespass, with the potential for court action. In the interests of public safety the Coal Authority is concerned that risks specific to the nature of coal and coal mine workings are identified and mitigated.

The above advice applies to the site of your proposal and the surrounding vicinity. You must obtain property specific summary information on any past, current and proposed surface and underground coal mining activity, and other ground stability

information in order to make an assessment of the risks. This can be obtained from The Coal Authority's Property Search Service on 0845 762 6848 or at www.groundstability.com
